ITR – Management Comments on Performance

Dear Shareholders,

BB Seguridade Participações S.A. (“BB Seguridade” or “Company”) reported a net income of R$1.1 billion in the second quarter of 2019, up 1.5% year-over-year, performance explained by the growth in equity income, as detailed below:

Equity Income

[1]New brand of BB MAPFRE SH1, after the restructuring of the partnership with MAPFRE.
[2] Since December 2018, MAPFRE BB SH2 is not part of BB Seguridade’s results.

In the 2Q18, the equity income arising from the investment in BB MAPFRE SH1, currently named Brasilseg, was positively impacted in R$231.8 million, in compliance with the SUSEP Rule 543/16, due to the Liability Adequacy Test flows compensation. Still on the 2Q18, the equity income arising from MAPFRE BB SH2, which is no longer part of BB Seguridade’s results since the restructuring of the partnership with MAPFRE concluded in November 2018, was negatively impacted in R$79.4 million, by the requirement of write-down in credits of operations with insurance and reinsurance and the increase in the balance of third party deposits. Setting these one-off events apart, the adjusted equity income would have grown 18.9% YoY, as detailed below:

Extraordinary effects

	Parent		
	2Q18	2Q19	Var%
EQUITY INCOME	**1,038,404**	**1,053,393**	**1.4**
(+) EXTRAORDINARY EFFECTS	**(152,422)**	**-**	**-**
BB MAPFRE SH1: compliance with SUSEP Rule 543/16	(231,771)	-	-
MAPFRE BB SH2: reinstatement of the balance of reinsurance and third party deposits	79,349	-	-
(=) ADJUSTED EQUITY INCOME	**885,982**	**1,053,393**	**18.9**

The growth in adjusted equity income is mainly explained by:

(i) the 39.0% increase in the equity income arising from BB Corretora, driven mostly by the rise of brokerage revenues, as a result of the improvement of commercial performance in insurance, pension plans and premium bonds segments, and by the recognition of additional brokerage revenues for outperforming the credit life and credit life for farmers’ sales targets;

(ii) the equity income from Brasilcap amounting to R$15.3 million, reversing the negative equity income of R$436 thousand in the 2Q18, explained by the rise of net investment income, justified by the downward

BB SEGUROS

move of the forward yield curve which resulted in mark-to-market gains from pre-fixed securities classified for trading, the opposite movement as compared to the 2Q18;

(iii) the 3.1% increase in the equity income arising from Brasilseg, mainly justified by the growth in earned premiums and by the improvement in loss ratio, events which were partially offset by the decrease in the net investment income; and

(iv) the growth of 61.4% in the equity income arising from the investment in IRB-Brasil RE, driven by the growth in the net investment income.

It is worth mentioning that in the 2Q19 the results of Brasilseg, Brasilprev, Brasilcap and IRB Brasil-RE were helped by the reduction of the CSLL tax rate from 20.0% to 15.0%, starting in January 2019, which contributed to the growth in the equity income of BB Seguridade.

RELATIONSHIP WITH INDEPENDENT AUDITORS

According to the CVM Rule 381/03, we hereby inform that for the second quarter of 2019 results BB Seguridade has used the independent audit services provided by Deloitte Touche Tohmatsu Auditores Independentes ("Deloitte"), through a contract maintained by its controlling shareholder Banco do Brasil S.A.

When hiring services not related to the external audit, BB Seguridade adopts procedures based on the applicable law and on international accepted principles that preserve the auditor's independence. Such principles consist of: (i) the auditor should not audit its own work; (ii) the auditor should not perform managerial activities at his client management structure; and (iii) the auditor should not promote the interests of its client.

During the second quarter of 2019, there were no changes related to audit services contracts between Banco do Brasil and Deloitte.

BB Seguridade holds a non-audit service contract with Deloitte for the collection, assessment and delivery of data and information to internal and external agents through a Whistleblower Hotline. This contract also reaches the wholly owned subsidiaries, BB Corretora and BB Seguros. During the second quarter of 2019, there were no changes related to non-audit services contracts between BB Seguridade and Deloitte.

Regarding to BB Seguridade's affiliated companies, the following audit contract was established between Deloitte and Brasilcap Capitalização S.A:

Company	Start	End	Services	Total Fee (R$)
Brasilcap Capitalização S.A.	04/01/2019	04/30/2020	Audit service of the Financial Statements of 2019 and 2020 fiscal years.	753,000.00

Regarding to BB Seguridade's affiliated companies, the following non-audit contract was finished between Deloitte and IRB Brasil Resseguros S.A:

Company	Start	End	Services	Total Fee (R$)
IRB Brasil Resseguros S.A.	09/12/2018	06/11/2019	Professional Services for Function Segregation Analysis and critical access to SAP.	495,000.00

1 – OPERATIONS

BB Seguridade Participações S.A. ("BB Seguridade" or "Company") was incorporated as a subsidiary of Banco do Brasil S.A. on December 20, 2012, in accordance with Brazilian law. The purpose of the Group is to participate in insurance companies, capitalization, open private pension funds, health insurance companies, reinsurance companies, as well as other companies whose corporate purpose is to broker and facilitate business involving personal, health, property and vehicle insurance, offer capitalization plans, private pension plans and asset management.

BB Seguridade, enrolled with the CNPJ (Brazilian equivalent of IRS Registry of Legal Entities) 17.344.597/0001-94, is headquartered in Setor de Autarquias Norte, Quadra 05, Lot B, 3rd Floor, Banco do Brasil Building, Asa Norte, Brasilia, Distrito Federal, Brazil. It is a publicly traded corporation and its shares are traded in the Novo Mercado segment of B3 SA (Brasil, Bolsa, Balcão), under the code "BBSE3" and its ADRs (American Depositary Receipts) in the USA over-the-counter market, under the code "BBSEY".

The Group's operations are conducted through its wholly owned subsidiaries BB Corretora de Seguros e Administradora de Bens S.A. (BB Corretora) and BB Seguros Participações S.A. (BB Seguros), which are under common administrative and management control.

2 – ACQUISITIONS, DISPOSALS AND CORPORATE RESTRUCTURINGS

a) Partnership Restructuring of Grupo Segurador Mapfre

Pursuant to Material Fact released on June 26, 2018 and Information to the Market on November 30th, BB Seguros Participações S.A. ("BB Seguros") and Banco do Brasil S.A., signed of a Partnership Restructuring Agreement ("Agreement") with MAPFRE S.A., MAPFRE Internacional S.A. and MAPFRE Brasil Participações S.A. ("MAPFRE Brasil"), which comprises the following corporate acts:

> (i) Partial spin-off of BB MAPFRE SH1 ("SH1") through the segregation of the equity corresponding to the investment in MAPFRE Vida S.A. to be then incorporated by MAPFRE BB SH2 ("SH2").
>
> (ii) Partial spin-off of SH2 through the segregation of the equity corresponding to the investment in Aliança do Brasil Seguros S.A. ("ABS") to be then incorporated by SH1. After the incorporation, ABS should refrain from renewing and selling large risks insurance policies, remaining only with the run-off portfolio (no renewals/ hirings).
>
> (iii) On November 30th, 2018, immediately after the corporate reorganization described in the items (i) and (ii) aforementioned, BB Seguros sold to MAPFRE Brasil the totality of its investment in SH2 for R$2.4 billion, which was reduced by dividends and interest on capital distributed as well as by the capital reductions carried out by the insurance companies involved on the reorganization. After these deductions, BB Seguros received from MAPFRE, on that date, the amount of R$ 2.3 billion.

The deal resulted, after the deductions of expenses related to the financial advisors and tax effects, in a capital release amounting to R$2.1 billion to be distributed to shareholders.

The deal also resulted in a negative impact on BB Seguridade's 4Q18 earnings amounting to roughly R$25 million due to tax effects and the expenses with the financial advisors.

The valuation, at book value, of the assets spun off by BB Mapfre SH1 and Mapfre BB SH2 was supported by a report issued by a specialized company and signed by three experts registered in the CRC, pursuant to Article 8th of the Brazilian Corporate Law. Such study, contracted by BB Mapfre SH1 and Mapfre BB SH2, was used to show movements defined in articles 229 (split) and 227 (incorporation) of the same Law. Finally, as determined by article 224, the report based the conditions presented in the Protocol of Justification of the Cisions, having been approved, as required by article 225 of the Brazilian Corporation Law, at general meetings of SHs that deliberated the effective spin-off movements.

In the new partnership model, the payment of additional compensation is provided by the Company of Insurance Aliança do Brasil SA ("Aliança do Brasil") to BB Corretora de Seguros and Administradora de Bens SA ("BB Corretora") for the sale of portfolio insurance Lender and Rural Producer Life in the distribution channels of Banco do Brasil, in compliance with the provisions of the 2nd Amendment to the Operational Agreement for the Insurance Segment and its annexes ("Operational Agreement" or "Agreement") of which Aliança do Brasil and BB Corretora have been signatories since 11.30.2018.

If the volume of sales at the end of each year exceeds the minimum parameter established in the Agreement, the Brazilian Alliance shall pay an additional remuneration to BB Corretora. The calculation will be carried out at the end of each year, starting on the base date of 12.31.2018.

In addition, there is a price adjustment mechanism for the assets of Brasilveículos sold to Mapfre, with calculation, monthly provisioning and annual payments, based on the achievement of goals in the sales of auto insurance. The mechanism provides for the possibility of earn in or earn out, that is, payment from MAPFRE Brasil to BB Seguros or from BB Seguros to MAPFRE Brasil.

b) Ciclic Corretora de Seguros S.A.

BB Corretora de Seguros e Administradora de Bens S.A. ("BB Corretora"), BB Seguridade´s wholly-owned subsidiary, and PFG do Brasil 2 Participações Ltda. ("PFG2"), a subsidiary of PFG do Brasil Ltda. ("PFG"), after the approval of regulatory and supervisory authorities, celebrated in August 10th, 2018, the Shareholders Agreement with term until October 27th, 2032, for joint action focused initially on the distribution of private pension products in the digital channel, through Ciclic Corretora de Seguros S.A.

After the signing of the Shareholders Agreement, the capital of Ciclic was increased by R$26,997,600.00 (twenty-six million, nine hundred and ninety-seven thousand and six hundred reais) through the issuance of 13,498,300 new common shares (“ON shares”) and 13,499,300 new preferred shares (“PN shares”), with an investment by BB Corretora amounting to R$20,247,600.00 (twenty million, two hundred and forty-seven thousand and six hundred reais) to buy 6,748,300 ON shares and 13,499,300 PN shares.

Considering the increase of capital and the acquisition of shares by BB Corretora, the Ciclic’s total capital is now composed of 26,998,600 shares distributed as follows:

Shareholder	ON Shares		PN Shares		Total	
	Quantity	%	Quantity	%	Quantity	%
BB Corretora de Seguros e Administradora de Bens S.A.	6,748,300	49.990	13,499,300	100.000	20,247,600	74.995
PFG do Brasil 2 Participações Ltda	6,751,000	50.010	--	--	6,751,000	25.005
Total	**13,499,300**	**100.000**	**13,499,300**	**100.000**	**26,998,600**	**100.000**

3 – Presentation of Financial Statements

a) Statement of Compliance

The individual financial statements have been prepared in accordance with the accounting guidelines derived from Brazilian corporation law and are presented in compliance with accounting practices adopted in Brazil, including pronouncements issued by the Comitê de Pronunciamentos Contábeis – CPC (Accounting Pronouncements Committee), approved by Conselho Federal de Contabilidade – CFC (Federal Accounting Council).

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB).

There are no divergences in accounting practices adopted for these individual and consolidated financial statements, given that the conformity between of the accounting standards adopted in Brazil and those issued by the IASB

All the relevant information specific to the financial statements are evidenced and correspond to those used by Management in its management.

These financial statements were approved and authorized for issue by the Board of Directors on 05.08.2019.

b) Continuity

Management evaluated the capacity of BB Seguridade to continue normally operating and it is convinced that it has the resources to continue its business in the future. In addition, Management is not aware of any material uncertainties that could generate significant doubts about its ability to continue operating. Accordingly, these consolidated and individual financial statements were prepared based on the assumption of operating continuity

c) Measurement Basis of Assets and Liabilities

These individual and consolidated financial statements have been prepared using historical cost as a measurement basis, except for the following items: (i) financial assets and liabilities held for trading, and (ii) financial assets at amortized cost.

d) Functional and Presentation Currency

The financial statements are presented in Brazilian Reais (R$), the functional and presentation currency of BB Seguridade. BB Seguridade and subsidiaries did not carry out operations in foreign currency

e) Consolidation Basis

The consolidated financial statements of the BB Seguridade and subsidiaries are included the consolidation of assets and liabilities from BB Seguridade and its controlled entities, as follows:

Company	Activity	Country of constitution	% Share	
			Jun 30, 2019	Dec 31, 2018
BB Seguros Participações S.A.	Holding	Brazil	100%	100%
BB Corretora de Seguros e Administradora de Bens S.A.	Brokerage	Brazil	100%	100%

The intra-group balances and transactions, such as any unrealized income or expenses on transactions between companies of the consolidated, are eliminated in preparing the consolidated financial statements. Unrealized gains arising from transactions with equity method investments are eliminated against the investment to the extent of the BB Seguridade equity interest in the investee.

f) Seasonality of Operations

BB Seguridade and its owned subsidiaries consider the nature of their transactions as non-seasonal and non-cyclical, taking into account the activities carried out by the Group. Consequently, no specific disclosures are provided in these notes.

g) Main Judgments and Accouting Estimates

The preparation of the financial statements in accordance with CPCs and IFRS requires that the Management make judgments and estimates affecting the recognized amounts referring to assets, liabilities, income and expenses. Estimates and assumptions adopted are analyzed on a continuous basis, and revisions are carried out and recognized in the period in which the estimate is reevaluated, with prospective effects. The actual results obtained may be different from estimates used herein.

Taking into consideration that there are certain alternatives to accounting treatments, the results that are disclosed could be different, in the event a different treatment had been chosen. Management considers that the choices made are appropriate and that the financial statements fairly present the consolidated financial position of BB Seguridade and the result of its operations in all material aspects.

Significant assets and liabilities subject to these estimates and assumptions encompass items for which an evaluation at fair value is necessary. The most relevant applications of the exercise on estimates judgments and usage occur in: Fair value of Financial Instruments, Impairment of Financial Assets, Impairment of Non-Financial Assets, Income Taxes, Deferred Taxes and Provisions and Contingent Liabilities.

h) Information for Effect of Comparability

Statement of income

In order to better present the tax effects on commission income, from the 2nd quarter of 2019 onwards, the taxes (ISS, PIS and Cofins) were segregated, and now are presented the net commissions income, with the corresponding reconciliation in Note 24 - Commissions Income.

Gross revenue remain unchanged and are only presented net of taxes in the Income Statement. The reclassification has no impact on net income for the reporting periods, but only in the form of disclosure, as shown below.

R$ thousand

	Consolidated			Consolidated		
	2nd Quarter 2018			1st Half 2018

There is no impact on the Parent Company's Income Statement.

Statement of Cash Flows

At the end of the fiscal year ended December 31, 2018, in order to improve the presentation of the Statement of Cash Flows, a review of this statement was carried out, in accordance with CPC 03 - Cash Flow Statement, in order to allow better disclosure of the net cash flow generated or consumed in operating activities, adjusted for expenses and revenues that do not have a cash effect, for activities that do not belong to operating activities, as well as for changes in assets and liabilities related to the company's operating activities.

Based on the equity variations, it is possible to capture the effects of any deferrals or appropriations by competence on past or future cash receipts or cash payments.

The main changes in the presentation of the Cash Flow Statement are:

i) Change in the beginning of the cash flow from the "Net income for the period" in the place of "Income before income tax and social contribution";

ii) Presentation of income tax and social contribution paid as supplementary information of operations;

iii) Reclassification of the dividend and interest on capital paid and received from the operating activities grouping for the respective investment and financing activities.

Following the review, the following reclassifications were made for comparability purposes, without any change in amounts previously shown in the net change in Cash and Cash Equivalents.

4 – DESCRIPTION OF SIGNIFICANT ACCOUNTING POLICIES

Accounting policies are the basics, principles, conventions, rules and the specific practices applied by BB Seguridade when preparing and presenting financial statements. BB Seguridade applied the policies described below in a consistent manner to all the financial statements prepared.

The accounting polices applied to the preparation of these intermediary financial statements are the same applied to the statements of the fiscal year up to 12.31.2018 and, therefore, should be read in conjunction with these financial statements.

a) Revenue and Expense Recognition

The profits and losses are assessed by an accrual basis and reported in the financial statements of the related fiscal years. The profits represent the financial income during the year, originated during from the regular activities of the company as cash flow and increase of the assets or decrease of the liabilities that generate increase of the net equity of the company, and that are not related to contributions of the parties included in such equity.

This concept is applied to the main forms of revenue originated from the activities of BB Seguridade and its subsidiary companies, as follows:

a.1) Revenue from investments of corporate interests – Income from the equity accounting method for evaluation of the investments in corporate interests are incorporated according to the investment interest of BB Seguridade in the results originated from the companies in which it was invested, according to CPC 18 (R2) – Investment in Controlled Companies and Affiliated and Joint Ventures.

a.2) Commission Revenue – The income originated from commissions are incorporated when its amount and the related costs and process of conclusion of the operation can be measured in reliable manner and when its related economic benefits are likely to be made, according to CPC 47 – Client Agreement Revenue.

In order to assess its revenue, BB Seguridade uses a five-stage model concept to determine when to incorporate a type of revenue: i) identification of the agreement; ii) identification of the performance obligations; iii) evaluation of the price of the operation; iv) measurement of the operation price and v) revenue assessment

The commission revenue are incorporated when the Company meets (or as the Company meets) its performance obligation when transferring goods and services (in other words, assets) agreed with the client. The commission income comes from the segments of people insurance, basic lines, vehicles, pension plans, capitalization and health insurance. These revenues are recognized over time (products with definite validity), where the performance obligation is diluted linearlu over the lifetime of the product / insurance, or at a specific time (monthly products), where the performance obligation occurs monthly , according to the characteristics of the products.

In cases of return of premium to the insured, the broker returns to the insurer the commission received in proportion to the amount returned or not received by the insurer in function of the remaining period of the policy.

For insurance whose expiry is not objectively defined (monthly insurance), the monthly payment of the payments is decisive for the continuity of the policies, and, in general, there are no refund of commissions.

a.3) Financial income and expenses – Income and expenses from financial instruments originated from assets and liabilities that generate and pay interest are incorporated, as well as the amounts related to the fair value adjustment, in the revenue for that fiscal year on the accrual basis, using the effective interest rate method, according to CPC 48 - Financial Instruments.

In the case of instruments measured at fair value through profit or loss (in accordance with item c.3 below), the fair value is determined as described in item c.4.

b) Cash and cash equivalents

Cash and cash equivalents are represented by cash equivalents in local currency, short-term fund investments, investments of sales and purchase agreements with high net value and insignificant risk of change in value, with a maturity of 90 days or less.

c) Financial instruments

The financial instruments are classified according to the business model and the contractual characteristics of the cash flows of the instruments according to CPC 48 - Financial Instruments .

Financial assets and liabilities are initially incorporated on the trade date, i.e., the date on which the Group becomes a party to the provisions of the instrument. The classification of the financial assets and liabilities is determined on the date of initial recognition.

Financial instruments are initially measured at fair value plus the transaction cost, except when financial assets and liabilities are recorded at fair value through profit or loss.

Financial assets and liabilities can be classified into one of the categories: i) financial instrument measured at fair value through profit or loss, ii) financial instrument measured at amortized cost and; iii) financial instrument measured at fair value through other comprehensive income. BB Seguridade currently does not use derivative financial instruments.

The main financial instruments of the BB Seguridade and its subsidiaries are securities mainly held by Banco do Brasil (short- and long-term investment funds, financial bills and sales and purchase agreements).

The BB Seguridade, through BB Seguros,holds interests in insurance companies, for which CPC 48 is not applied. When there is a divergence in accounting practice in investments in equity investments, it is necessary to adjust the accounting practices for standardization. However, the CPC Technical Pronouncements Review no. 12/2017 allowed, subject to an exemption for insurers, that the entity apply the CPC without need for standardization in relation to the affiliated companies (until January 1, 2021).

c.1) Amortized Cost - These are financial assets held by BB Seguridade (i) for the purpose of receiving their agreed cash flow rather than for sale with profit or loss and (ii) whose terms of the agreement generates cash flows at specified dates exclusively for primary payments and interest payments on the primary amount outstanding.

Short-term financial instruments are recognized as financial assets measured at amortized cost. Changes in these assets are recognized in income for the period in financial income or expense, depending on the result obtained.

c.2) Fair value through other comprehensive income - VJORA - These are financial assets held by BB Seguridade (i) both for the receipt of its cash flow by agreement and for disposal with realization of profits or losses and (ii) the agreement terms of which generates cash flows at specified dates exclusively for primary payments and interest payments on the primary amount outstanding

BB Seguridade currently does not have financial assets classified in this category.

c.3) Fair value through profit or loss (VJR) - Financial assets that are not measured at amortized cost or at fair value through other comprehensive income are classified in this category.

The funds and repurchase agreements are recognized as financial assets at fair value through profit or loss.

c.4) Determination of fair value - Fair value is the price that would be received for the sale of an asset or would be paid by the transfer of a liability in a non-forced transaction between market participants at the measurement date.

The fair value of financial instruments traded in active markets on the balance sheet date is based on the quoted market price or the over-the-counter price (selling price for long positions or purchase price for long positions), without any deduction of transaction cost.

In situations where there is no market price for a particular financial instrument, its fair value is estimated on the basis of valuation methods commonly used in the financial markets that are appropriate to the specific characteristics of the instrument and capture the various risks to which it is exposed . The valuation methods include: the discounted cash flow method, comparison to similar financial instruments for which there is a market with observable prices, option pricing model, credit models and other known valuation models.

The internal pricing models may involve some level of estimation and judgment by the Administration whose intensity will depend, among other factors, on the complexity of the financial instrument.

c.5) Financial liabilities - An instrument is classified as a financial liability when there is a contractual obligation that its settlement is made through the delivery of money or other financial asset, regardless of its legal form. Financial liabilities include short-term and long-term debt that are initially measured at fair value, which is the amount received net of costs incurred in the transaction and subsequently at amortized cost.

d) Write-off of Financial Assets and Financial Liabilities

d.1) Financial assets - A financial asset is written off when: (i) the contractual rights related to the respective cash flows expire; (ii) transfers most of the risks and benefits associated with the asset to third parties; or (iii) when control over the asset is transferred, even having withheld part of the risks and benefits associated with its detention.

The rights and obligations retained in the transfer are incorporated separately as assets and as liabilities, when appropriate. If the control over the asset is retained, the Group continues to incorporate it in the extent of its continuing involvement, which is determined by the extent to which it remains exposed to changes in the value of the transferred asset.

d.2) Financial liabilities - A financial liability is written off when its obligation is eliminated, canceled or prescribed. If an existing financial liability is replaced by another of the same creditor in substantially different terms, or the terms of the existing liability are substantially modified, such modification is treated as a write-off of the original liability and recognition of a new liability, and the difference between the accounting values is recognized in profit or loss.

e) Reduction in the recoverable value of financial assets - Impairment

For impairment of financial assets (impairment), CPC 48 - Financial Instruments, considers the expected credit losses, which are a weighted estimate of the probability of credit losses (that is, the present value of all cash deficits) over the expected life of the financial instrument.

The cash deficit is the difference between the cash flows due to the entity under the contract and the cash flows that the entity expects to receive. As the expected credit losses consider the value and timing of the payments, the credit loss occurs even if the entity expects to be paid in full, but after the due date stipulated by the contract.

For the impairment of commissions receivable, the simplified approach allowed by CPC 48 was used for commercial receivables in which the recognition of expected credit losses follows the model for the entire life of the instrument.

Annually is assessed at BB Seguridade if there is any objective evidence of impairment of its financial assets, according to CPC 48 - Financial Instruments.

f) Business Combination

The acquisition of a subsidiary company through a business combination is registered on the date of acquisition, that is, on the date the control is transferred to BB Seguridade, by applying the acquisition method. Under this method, identified assets (including intangible assets not previously recognized), liabilities assumed and contingent liabilities are recognized at fair value at the date of acquisition. Any positive differences between the acquisition cost and the fair value of the net identifiable assets acquired are recognized as goodwill (goodwill). In the event of a negative difference (a gain on an advantageous purchase), the amount identified is incorporated in the income statement for the period in Other Income.

The transaction costs incurred by BB Seguridade in a business combination, except for costs related to the issuance of debt or equity instruments, are registered in the income statement for the period when incurred. Any contingent consideration payable will be measured at fair value on the date of acquisition.

The profits and losses of the subsidiary companies acquired during the accounting period are included in the financial statements from the date of acquisition until the end of the period. Accordingly, the profits and losses of subsidiary companies sold during that period are included in the financial statements from the beginning of the period up to the date of disposal, or until the date on which BB Seguridade ceases to exercise control.

g) Change of Corporate Interest in Subsidiaries

Changes in corporate interest in a subsidiary that do not result in loss of control are accounted for as equity transactions (ie, transactions with owners in the capacity of owners). Consequently, no premium is recognized as a result of such transactions.

In such circumstances, the carrying amounts of the interests of the parent and subsidiary companies will be adjusted to reflect changes in their relative interests in the subsidiary company. Any difference between the value by which the interests of subsidiary companies are adjusted and the fair value of the consideration paid or received will be recognized directly in equity and attributed to the owners of the parent company.

h) Loss of Control

In accordance with CPC 36 (IFRS 10), in the event of loss of control of a subsidiary company, BB Seguridade no longer recognizes, at the date control is lost: (i) assets, including premiuns, and liabilities of the subsidiary company at its book value; and (ii) the carrying amount of any interests of subsidiries in the former subsidiary, including any components of other comprehensive income attributed to it.

In addition, BB Seguridade recognizes at the date of loss of control: (i) the fair value of the consideration received, if any, originated from the transaction, event or circumstances that resulted in the loss of control; (ii) the distribution of shares of the subsidiary to the owners, if the transaction that resulted in the loss of control involves a distribution of shares; (iii) any investment retained in the former subsidiary at its fair value; and (iv) any resulting difference as a gain or loss in profit or loss attributable to the parent.

i) Goodwill and Other Intangible Assets

The goodwill generated on the acquisition of investments of corporate interests is accounted considering the fair value of the identifiable assets and the assumed liabilities of the acquiring company on the acquisition date and, in accordance with the applicable standards, is not amortized. However, it is tested, at least annually, for impairment purposes. After initial recognition, goodwill is measured at cost less any accumulated impairment losses.

Intangible assets are incorporated separately from goodwill when they are separable or arise from contractual rights or other legal rights, their fair value can be measured reliably and it is probable that the expected future economic benefits will be transferred to BB Seguridade. The cost of intangible assets acquired in a business combination is its fair value at the acquisition date. The intangible assets acquired independently are initially measured at cost.

The useful life of intangible assets is considered to be definite or indefinite. Intangible assets with defined useful lives are amortized over the course of their economic life. They are initially registered at cost, less accumulated amortization and impairment losses. Intangible assets with indefinite useful lives are recorded at cost less any impairment losses.

The costs incurred related to the acquisition, production and development of software are capitalized and registered as intangible assets. Expenses from the research phase are registered as expenses.

Intangible assets with definite useful lives are amortized on a straight-line basis over the estimated useful life. The amortization method and period of an intangible asset with a definite useful life are reviewed at least annually. Changes in the expected useful life or proportion of expected use of the future benefits incorporated in the asset are recognized through changes in the amortization period or method, when appropriate, and treated as changes in accounting estimates.

The amortization expense of intangible assets with defined useful lives is incorporated in the statement of income for amortization of intangible assets. Losses due to reduction to the recoverable amount are incorporated as adjustment expenses to recoverable amount other expenses in the Consolidated Income Statement.

j) Decrease in the recoverable value of non-financial assets - Impairment

Annually, it is evaluated, based on internal and external sources of information, if there is any indication that a non-financial asset may be with recoverability problems. If there is such indication, the asset's recoverable amount is estimated. The recoverable value of the asset is the higher of its fair value less costs to sell it or its value in use.

Whether there was any indication of loss in the recoverable amount the impairment test of intangible assets with indefinite useful life is annually performed, including premium acquired in a business combination, or an intangible asset not yet available for use. This test can be performed at any time during an annual period, provided it is performed at the same time each year.

In the event that the recoverable value of the asset is lower than its carrying amount, the carrying amount of the asset is reduced to its recoverable value by an impairment loss, the consideration of which is incorporated in the income statement for that year, in other expenses / operating revenues.

Annually, it is assessed whether there is any indication that a loss by reduction to recoverable value incorporated in prior periods for an asset other than premium for expected future profitability, it might no longer exist or may have decreased. If there is such indication, the asset's recoverable amount is estimated. The reversal of a loss for impairment of an asset will be registered immediately in the income statement for the period, as a rectifier of the balance of Other (expenses) / operating income.

k) Investments in Corporate Interests

Under the equity method, the investment is initially measured at cost and subsequently adjusted by the investor's recognition of changes in the net assets of the invested company. In addition, the portion of the investor's income in the results generated by the invested company must be included in the profit and losses of the investor's period, according to CPC 18 (R2) - Investment in Affiliate, Subsidiary and Joint Venture.

In situations where the investees use different accounting practices in events and transactions of the same nature in similar circumstances, the necessary adjustments are made to adjust the financial statements of the investees to the accounting practices adopted by the investor.

l) Provisions, Contingent Liabilities and Legal Obligations

The incorporation, measurement and disclosure of contingent liabilities and legal obligations are carried out in accordance with the criteria defined in CPC 25 - Provisions, Contingent Liabilities and Contingent Assets.

Contingent liabilities are recognized in the financial statements when, based on the analysis of legal advisers and the Administration, the risk of loss of a legal or administrative action is considered probable, with a probable outflow of funds for the settlement of the obligations and when the amounts involved are measured with sufficient certainty, being quantified at the time of service and reviewed monthly in an individualized manner, thus considering the cases related to cases considered unusual or whose value is considered relevant under the analysis of legal counsel, considering the amount of indemnity estimated.

Contingent liabilities classified as possible losses are not recognized in the accounting statements, and they should only be disclosed in the explanatory notes, and those classified as remote do not require provision or disclosure.

Tax legal obligations are derived from tax obligations under the law, irrespective of the probability of success of lawsuits in progress and their amounts are fully recognized in the financial statements.

m) Taxes

Taxes are calculated based on the rates shown in the table below:

Taxes	Tax Rate
Income Tax (IRPJ) (1)	25%
Social Contribution on Net Income (CSLL)	9%
Contribution to PIS (Social Integration Program) / Pasep (Investment Program for Civil Servants)	1.65%
Contribution for the financing of Social Security (COFINS)	7.60%
Contribution to PIS / Pasep(2)	0.65%
Contribution for the financing of Social Security (COFINS)(2)	4%
Municipal services tax- ISS	Up to 5%

(1) Includes basic rate (15%) and additional (10%)
(2) Interest rate on financial investments.

The deferred tax assets and deferred tax liabilities are constituted by the application of the current tax rates on their respective bases. For constitution, maintenance and write-off of deferred tax assets, the criteria established by CPC 32 - Taxes on Profit are observed, and are supported by a realization capacity study.

n) Segment Disclosure

CPC 22 - Information by Segment (IFRS 8) requires the disclosure of financial information of the entity's operating segments based on the internal disclosures that are used by Management to allocate resources and to evaluate its financial and economic performance

o) Interest on Shareholder's Capital and Dividends

Brazilian companies may assign a nominal interest expense, deductible for tax purposes, on their own capital. The amount of interest on shareholders 'equity is considered as a dividend and, when applicable, presented in these consolidated financial statements as a direct reduction in stockholders' equity.

Under the current dividends policy, BB Seguridade distributes to shareholders as mandatory dividend a portion corresponding to at least 25% of adjusted net income with the deductions and increases provided for in Art. 202 of Law 6,404 / 76, which are recognized as a liability and deducted from shareholders' equity when allocating the result of the period.

In the reported period there was no payment of Interest on Shareholder's Capital

p) Earning per share

The earnings per share disclosure is made in accordance with the criteria defined in CPC 41 - Earning per Share. The basic and diluted earning per share of BB Seguridade was calculated by dividing net income attributable to shareholders by the weighted average number of total common shares, excluding treasury shares. BB Seguridade has no option, subscription bonus or its equivalents that give its holder the right to acquire shares. Thus, basic and diluted earnings per share are the same.

q) Leasing operations

The recognition, measurement and disclosure of leases are carried out in accordance with the criteria defined in CPC 06 (R2) - Leasing Operations, effective as of January 1, 2019.

BB Seguridade and its subsidiaries do not have leasing operations, but they have investiments in insurance companies, for which the SUSEP has not yet approved the adoption of the new standard. When there is a divergence in the accounting practice adopted by the investor in relation to the investee companies, adjustment procedures are necessary for standardization purposes. Considering the current leasing operations of the investees, the necessary adjustments were made in the investments to standardize the practices.

r) Improvements to IFRS and Recently Issued Pronouncements

Improvements to IFRS are amendments issued by the IASB - International Accounting Standards Board and comprise changes in recognition, measurement and disclosure rules related to various IFRS. We present a summary of some amendments as well as the interpretations and pronouncements recently issued by the IASB and CPC, which will come into effect after this period:

IFRS 17 - Insurance Contracts - In May 2017, the IASB issued a new standard aimed at the insurance market with the aim of standardizing globally the accounting of insurance contracts.

IFRS 17 replaces IFRS 4, which was brought as an intermediary standard in 2004. IFRS 4 provided the waiver of companies to continue accounting for insurance contracts using national accounting standards, resulting in different approaches. The new standard requires all insurance contracts to be accounted for consistently, benefiting both investors and insurance companies.

The IFRS becomes effective on January 1, 2022, with anticipated application permitted.

To this date, the CPC has not issued an equivalent standard.

The possible impacts resulting from its adoption in the group companies will be evaluated and concluded by the date of entry into force of the standard.

Amendments to IFRS 10 - Consolidated Financial Statements and IAS 28 - Investments in Associates and Joint Ventures - In September 2014, the IASB issued amendments to IFRS 10 and IAS 28 that address the inconsistencies generated by the two standards in accounting for transactions between investors and their associates and joint ventures.

The date for implementation of these amendments to IFRS 10 and IAS 28 has been postponed, even without a date defined by the IASB.

5 – RISK MANAGEMENT

The risk management at BB Seguridade follows the guidelines established in its Risk Management, Internal Control and Compliance Policy, approved by the Board of Directors and disclosed to the market through the investors relations website.

The Company understands that its risk exposure originates from its interests, and therefore the Policy contemplates two risk management dimensions: risk management (risks arising from the operations of BB Seguridade and its subsidiaries) and risk governance (risks arising from associates/joint ventures).

By means of its Risk Appetite Statement, approved by the Board of Directors, the Company defines the maximum levels of risks that it accepts to incur in the fulfillment of its objectives.

The risk management process at BB Seguridade is based on the steps of setting the context, identifying, analyzing, evaluating, treating, monitoring, and communicating and consulting the risks. This process is internally documented in the Group's Risk Management, Internal Controls and Compliance Model.

BB Seguridade Group has a technical area dedicated to risk management, internal controls and compliance, segregated from the business areas and Internal Audit. The area is responsible for providing the basis and support to the performance of the risk management process, which contemplates BB Seguridade and its subsidiaries, as well as the achievement of risk governance concerning the other entitie in which it holds interests..

a) Risk management at BB Seguridade and its subsidiaries

The risk management framework adopted by BB Seguridade, as defined in its Risk Management, Internal Control and Compliance Policy, is structured based on a three-line of defense model: in the first line, the process managers (risk owners) are responsible for implementing preventive and corrective actions that mitigate the weaknesses identified in the processes and control deficiencies; in the second line, the Superintendence of Risk and Controls assists and monitors the risk owner in managing risks and internal controls in order to adjust them to the Group's risk appetite; and in the third line, the Internal Audit works independently, by providing to governance bodies assessments on the risk management and internal control effectiveness.

The risk management fmechanisms and tools also include, among others: segregation of duties; joint decisions; Information Security Policy, Preventing and Combating Money Laundering, Terrorist Financing and Corruption Policy, Code of Ethics and Conduct and an Integrity Program in line with Law 12,846/2013 (Anti-Corruption Law) and Decree 8,420/2015 (documents disclosed internally and also to the market, available at the investors relations website); internal risk management, internal controls and compliance regulations, in addition to internal communication program on risk management, internal controls and compliance, continuously promoting the adaptation of the entire Group to these subjects.

The Executive Board is supported by two non-statutory technical committees: the Reputational Risk Committee and the Finance and Investment Committee, which advise on issues concerning the management and control, respectively, of the reputational risk and the risks arising from the investments in the Group's and its subsidiaries' financial asset.

The governance structure of BB Seguridade also includes the Audit Committee, a statutory body advising the Board of Directors, which is responsible for evaluating and monitoring the Group's risk exposures.

Information related to risk management are periodically reported to the Executive Board, to the Audit Committee and to the Board of Directors and are also reported to the Supervisory Council.

a.1) Risks associated with investments in financial assets

In addition to the Risk Management Policy, the Group has a Financial Investment Policy, approved by the Board of Directors and applicable to its subsidiaries, that sets out the criteria relating to the nature, term and acceptable risks of the financial investments. The current policy allows the investment of funds only in fixed-income securities and, in case of corporate bonds, the counterparty must have a minimum rating of "investment grade", issued by at least one of the following risk rating agencies: Moody's, Standard & Poor's and Fitch Ratings. Also concentration limits are defined by counterparty and rating. Operations with assets that result in foreign currency risk, variable income or leverage risk are prohibited, as well as the trading of derivative instruments, except through mutual funds and for the sole purpose of hedge.

The investments in financial assets of BB Seguridade and its subsidiaries, classified as cash equivalents, are concentrated on repurchase agreements backed by Federal Government Bonds and Corporate Bonds, with Banco do Brasil as the seller (note 7). Other investments in financial assets classified as financial instruments are invested in fixed-income long-term mutual fund and financial bills (note 8).

a.2) Market Risk

Market risk is defined as the possibility of negative impacts resulting from fluctuation in the market values of positions in financial instruments held by the Group. At BB Seguridade and its subsidiaries, the exposure to this risk arises from the investment portfolio in financial assets.

The market risk is managed based in the Financial Investment Policy, that defines which assets may comprise the portfolio and the VaR (Value at Risk) limit, calculated for 21 business days, with the portfolio volatility estimated using the exponentially weighted moving average (EWMA) and 95% confidence level. The indicator is monitored by the Finance and Investment Committee and by the Executive Board.

Sensitivity analysis on market risk factors

On June 30, 2019, , BB Seguridade and its subsidiaries held derivative instruments only via fixed-income mutual funds. BB Seguridade's and its subsidiaries' exposure to market risk factors was due to its financial assets, which almost fully comprise financial instruments yielding variable interest pegged to the DI or Selic rate. Based on the studies conducted, there is no relevant exposure to market risk factors.

a.3) Credit Risk

The credit risk is defined by the Group as the possibility of negative impacts associated to the non-fulfillment, by a borrower or a counterparty, of its corresponding financial obligations according to negotiated terms, and/or to the devaluation of receivables due to a drop in the borrower's or counterparty's risk rating. At BB Seguridade and its subsidiaries, the exposure to this risk arises from the investment portfolio in financial assets, which is composed of Bonds issued by private counterparties.

Due to the nature of the Group's operation, there is no relevant credit risk arising from the payment of brokerage fee for products sold by BB Corretora, because these amounts are received by Banco do Brasil and passed on directly to BB Corretora.

The amount of this provision, proportional to that invested by BB Seguridade, is R$394 thousand on June 30, 2019 (R$429 thousand on Dec 31, 2018).

a.4) Liquidity Risk and capital management

The liquidity risk is defined by the Group as the possibility of negative impacts due to lack of resourses to pay financial commitments at maturity.

BB Seguridade and its subsidiaries maintain assets with a high degree of conversion in cash to cover liabilities and other expected allocations to short term. The parameters used are defined in the Financial Investment Policy, Capital Management Policy and the Capital Plan.

The Capital Plan, prepared for a minimum three-year horizon, presents the projected financial flows from the operational activity, such as compensation from commissions, equity interests, expenses inherent to the Group's activities and those resulting from strategic movements, such as allocation of funds to equity interests, strategic investments, divestitures and disposals and considers the maintenance of a liquidity margin in order to keep the financial balance in case of unpredictable events.

The Company and its subsidiaries' main liabilities refer to administrative costs, payment of taxes and dividends, as presented below.

b) Risk Governance applied to Affiliated Companies

The associates/joint ventures have own risk management framework. The results of the work performed by these frameworks provide inputs to the achievement of continuous assessment and monitoring performed by BB Seguridade which seeks, through governance, the adoption of best risk management practices by the associates/joint ventures.

The associates/joint ventures regulated by Susep have risk management framework based on minimum requirements defined by the regulatory body, established at Susep Circular Letter 521/2015.

b.1) Liquidity, solvency and capital management

For the associates/joint ventures regulated by Susep, the main indicator for capital management is the Solvency Capital Requirement (CMR), which represents the total capital a company must maintain, at any time, to operate, and intends to guarantee the risks inherent to their operations, as regulated by CNSP Resolution 321/2015.

CMR is composed of portions relating to underwriting, credit, operational and market risks and the solvency capital requirement adequacy is measured using the Adjusted Net Equity (PLA) of the entity, which must be equal to or above the calculated CMR.

CNSP Resolution 321/2015 also establishes technical provisions calculation models and requires a minimal liquidity above the provisioned amounts.

For Brasildental, the National Agency of Supplementary Health (ANS) sets rules for recognition of technical reserves, Minimum Adjusted Equity (PMA) criteria and Solvency Margin criteria according to Regulatory Resolution 209/2009.

On June 30, 2019, all associates/joint ventures in which BB Seguridade holds interest and that must maintain minimum regulatory capital presented liquidity, capital and solvency adequacy, in accordance with applicable regulation.

6 – SEGMENT INFORMATION

The information by segment has been prepared considering the criteria used by Management to evaluate the performance, in decisions made regarding the allocation of funds for investment and other purposes, considering the regulatory environment and the similarities between goods and services.

The operations of BB Seguridade are basically divided into two segments: (i) insurance (insurance and reinsurance, pension plans, health and capitalization) and (ii) brokerage.

a) Insurance

In this segment, products and services offered are related to life, property and vehicle insurance, property and vehicle insurance, rural, special risks and financial, transport, hulls, and housing people, supplementary pension plans, dental plans and capitalization plans, and reinsurance.

The profit or loss from this segment derives mainly from revenues from insurance and reinsurance premiums, contributions to private pension plans, contributions to dental plans, capitalization bonds and investments in securities, less sales expenses, technical reserves and expenses related to claims.

Profit and loss is recorded under the equity method of the investments in subsidiaries.

b) Brokerage

In this segment, products and services offered are related to brokerage and management, fulfillment, promotion and facilitation of casualty, life and capitalization insurance, pension plans, dental plans and health insurance. It includes the balances of BB Corretora and its investee Ciclic.

16 – PROVISIONS AND CONTINGENT LIABILITIES

Contingent assets

There are no contingent assets recognized in the consolidated financial statements.

Tax Lawsuits

The tax lawsuits of BB Corretora mainly derive from assessments by the municipal / district tax authorities (discussing the “payment” of the Tax on Services of Any Nature [ISSQN]); and, from federal demands filed at the administrative or judicial levels discussing federal taxes (notably, non-homologation of own tax offsetting with other taxes). And, as regards BB Seguridade and BB Seguros, these companies do not have tax lawsuits.

Civil Lawsuits

In the civil lawsuits involving BB Seguridade, BB Seguros and BB Corretora, we highlight the claims for various indemnities (material damage, moral, etc.), notably, arising from consumer relations involving insurance products and others (personal and equity insurance., pension plans segment, premium bonds and dental care plans).

Labor Lawsuits

The labor lawsuits involving BB Seguros and BB Corretora come mainly from labor claimants of a civil nature (arising from group life business insurance, whose original employers did not pay the severance pay); and third party claims in disadvantage of the Investee companies and BB Seguros (as a shareholder), notably, requesting any subsidiary conviction. On the other hand, the labor lawsuits of BB Seguridade involve former employees, discussing rights arising from 7th and 8th overtime and their effects on other salary / indemnity amounts.

a) Provision

In accordance with CPC 25 (IAS 37), the BB Seguridade recognizes provisions for civil, tax and labor lawsuits classified as “probable”.

Legal Reserve	1,129,354	1,087,026
Statutory reserve	450,044	178,549

The purpose of the Legal Reserve is to ensure the integrity of the capital stock and may only be used to offset losses or increase the capital stock. Of the net income for the period, 5% is invested, before any other allocation, in the constitution of the legal reserve, which will not exceed 20% of the share capital and the balance of the legal reserve plus the amounts of capital reserves that will not exceed 30%. (thirty percent) of the capital stock.

The purpose of the Statutory Reserve is to guarantee operating margin compatible with the development of BB Seguridade's operations, consisting of up to 100% (one hundred percent) of the net income balance, after legal allocations, including dividends, up to a limit of 80%. Eighty percent (%) of the share capital.

Weighted average of ordinary and dilutive potencial ordinary shares outstanding	1,996,599,306	1,996,598,192
Earnings per share – basic and diluted (R$)	1.05	0.98

The basic earnings per share is calculated by dividing net income attributable to shareholders of the BB Seguridade by the weighted average number of common shares outstanding in each of the periods presented.

The diluted earnings per share is calculated by dividing net income attributable to shareholders of the BB Seguridade by the weighted average number of common shares outstanding, including the effect of all dilutive potential ordinary shares.

The BB Seguridade has no option, bonus of subscription or its equivalents which provide their holder the right to acquire shares. Thus, the basic and diluted earnings per share are equal.

d) Dividends

BB Seguridade follows the Dividend Policy available on the Investor Relations website of BB Seguridade.

The Policy is reviewed annually or, extraordinarily, at any time, and submitted to the Board of Directors of group for approval.

h) Treasury shares

h.1) Share-Based Payment – Variable Wage Program

The Variable Wage Program Board of BB Seguridade determined that, of the total amount allocated to the payment of variable compensation, 50% will be made in shares of BB Seguridade (BBSE3). From the total paid in shares, 20% will be immediately transferred to the beneficiary ownership and 80% will be deferred for a period of four years.

On November 13, 2014, the Brazilian Securities and Exchange Commission (CVM) authorized BB Seguridade to make annually the private trading of its own shares, in order to fund, through these shares, part of the payment of the variable remuneration compensation of its Executive Board members, without the need to submit, every year, that commission new requests, in the case therefore of permanent authorization.

26 – SUBSEQUENT EVENT

On July 10, 2019, after approval by the Company's Board of Directors to carry out the divestment of IRB's capital stock, in line with the strategy of focusing on the most profitable segments for the Company and with high synergy in distribution through the banking channel, BB Seguros Board of Directors approved the restricted secondary public offering of shares to dispose of all 47,520,213 IRB-Brasil RE shares held by BB Seguros Participações SA, in an operation where the shares held by the Federal Union were also put up for sale.

On July 18, 2019, after granting authorization from Susep for IRB to change from a defined control block model to a model without a controller, the bookbuilding procedure was concluded. The price per share was set at R$ 88.00.

On July 23, 2019, the offer was effectively settled with the delivery of the shares to the respective investors and the concomitant receipt by BB Seguros of the amount of R $ 4,181 million for the sale of the shares, which produced a gain of R$ 2,320 million to BB Seguros, net of taxes and distribution costs. After the sale, BB Seguros no longer stake in IRB Brasil-RE and that company became a capital stock

REPORT ON REVIEW OF INDIVIDUAL AND CONSOLIDATED INTERIM FINANCIAL STATEMENTS

To the Board of Directors, Management and Shareholders of
BB Seguridade Participações S.A.
Brasília – DF

We have reviewed the accompanying individual and consolidated interim financial statements of BB Seguridade Participações S.A. ("Company"), which comprises the balance sheet as at June 30, 2019, and the related statements of income and of comprehensive income for the three and six-month periods then ended and of changes in equity and of cash flows for the six-month period then ended, and a summary of significant accounting practices and other explanatory notes.

Management is responsible for the preparation of these individual and consolidated interim financial statements in accordance with the accounting practices adopted in Brazil and the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB). Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial statements (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual and consolidated interim financial statements

Based on our review, nothing has come to our attention that causes us to believe that the aforementioned accompanying individual and consolidated interim financial statements do not present, in all material respects, the individual and consolidated financial position of BB Seguridade Participações S.A. as at June 30, 2019, its individual and consolidated financial performance for the three and six-month periods then ended and its individual and consolidated cash flows for the six-month period then ended, in conformity with the accounting practices adopted in Brazil and with the International Financial Reporting Standards (IFRS), issued by the IASB.

Deloitte.

Other matters

Interim statements of value added

We have also reviewed the individual and consolidated interim statements of value added ("DVA") for the six-month period ended June 30, 2019, prepared under the responsibility of the Company's Management and presented as supplementary information. These statements were subject to the same review procedures described above, and, based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, consistently with the individual and consolidated interim financial statements taken as a whole.

Corresponding amounts related to the prior year and corresponding amounts related to the first semester review of the prior year

The amounts corresponding to the financial information for the year ended December 31, 2018 and the three and six-month periods ended June 30, 2018, presented for comparison purposes, were audited and reviewed, by other independent auditors, who issued their reports, without any modifications, on February 8, 2019 and August 3, 2018, respectively.
