Highlights of the month

In **term life**, the premiums written increased 8.4% YoY, as a result of the evolution in premiums related to policy renewals.

The **credit life** insurance fell 32.1% YoY, due to the lower sales volume.

The **rural** segment decreased 3.9% YoY, as consequence of the drop in crop insurance (-26.8%), justified by the higher amount of rural working capital loans antecipated to finance the crop cycle 2021/2022, which started in February 2021, while the anticipation for the cycle 2022/2023 showed a lower volume in March 2022. The drop in crop insurance was partially offset by the expansion of rural lien (+7.2%) and credit life for farmers (+12.0%).
