Highlights

The premiums written from **term life** insurance increased 11.4% YoY, driven by the higher average ticket.

The **credit life** insurance grew 40.5% YoY, explained by the credit origination, the higher penetration on outstanding loans and the lower churn.

The premiums from **rural** segment increased 44.8%, propelled by all business lines: crop insurance (+47.8), driven by the release of remaining resources of crop cycle 2023-2024; rural lien (+23.4%), boosted by the cattle lien insurance; and credit life for farmers (+57.4%), with the higher average ticket and the number of policies sold.

Average daily contributions
(R\$ mm)

Average daily collections
(R\$ mm)

The **pension plans contributions** were up 31.5% YoY, explained by both the higher average contribution and the expansion of plans sold.

In April 2024, the **premium bonds collections** decreased 1.0% YoY, driven by the drop of both the number of unique payment bonds sold and the average ticket.

Disclaimer

This report was prepared by BB Seguridade Participações S.A. and aims to provide a guidance on the monthly commercial performance of its investees, based exclusively on public data provided by the Statistics System of the Superintendence of Private Insurance – Susep, available at <http://www2.susep.gov.br/menuestatistica/SES/principal.aspx>.

It is worth mentioning that the figures in this report are determined in the accounting standard adopted by Susep, named Susep GAAP, and may differ from those disclosed in BB Seguridade’s MD&A and quarterly Financial Statements, which adopted the international rules and standards (International Financial Reporting Standards – IFRS), issued by International Accounting Standards Board (IASB).

In this report, any events that could be considered as non-recurring were not segregated. Additional information will be detailed exclusively in the MD&A.
